

## We act to protect our customers and employees

We comply with the branch protection plan validated by the BAG  
(Federal Office of Public Health)

We have developed an internal protection concept.  
This plan is available at the reception desk for consultation.  
Our staff has been trained in the proper implementation of this protection concept. .

Our employees wear masks in areas accessible to the public, or are behind a plexiglass.

Our guests wear the mask in the hotel building and on the terrace, except when they are sitting at their table for consumption or if they are in their room.

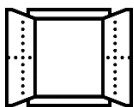

We provide our staff and customers with disinfectant gel.

We clean and disinfect the rooms after each departure and leave the rooms unoccupied for at least 48 hours between each guest.

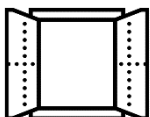

We regularly disinfect surfaces in public places and other objects in direct contact with certified cleaning products that kill the virus at 99.9%

We air our premises regularly.

We ensure the traceability of people in order to be able to go back up the chains of infection if necessary.

On the day of your departure, please open the window before leaving the room.
